YA#	Description:
2000/88 #13	This is really Dredge #3 on the Klondike front and rear views. This dredge was a little smaller than dredge #4. Who ever took the original post card put on the wrong dredge #. This dredge was gone by the early 1940s as far as I can remember.
2000/88 #14	Changing bucket lips date and dredge not known. I believe person on left is Les Butterworth, Roy's brother.
