YA#	Description:
98/130 #1	Eddie Mackenzie. Mayo, Yukon. Were there from 1st of April 1936 until war declared 1942. Mining operations closed as our crew of men had to join the army. Irvin and Ed had to take our equipment to Whitehorse for use in building the Alcan Hiway [Highway] to Alaska. Irvin out in road working. Then I was asked to join the White Pass Railroad Route to take over their accounting office and get it in proper order. Never got back to Mayo which were our plans.
