| 98/37 #1 | Three Cadet-officers left Dorval Airport on June 3, 1948 on a North Star, to work on the Alaska Highway. We were student engineers from the Ecole Polytechnique, the Engineering school of the university of Montreal. You'll find myself, G.S. Turcotte and J.C. Lanoie. |
| 98/37 #2 | There was a flood in the Fraser Valley that year. So we stopped in Edmonton while the plane went to Vancouver full of empty bags to be filled with sand. At the time, you couldn't get a drink in a bar, restaurant or club in Edmonton. You had to bring your own bottle. But, just a few miles from this dry town, there was St. Albert, a French community at the time, where you could buy beer or liquor by the drink. So you'll find myself in this place on a Saturday afternoon. |
| 98/37 #3 | Our first posting was for repairing washouts around Watson Lake. Here are Wallbridge, a civilian, Turcotte and W.O. Hovey at Watson Lake Airport, at 2:00 hrs on the June 13 after a party at the mess. |
| 98/37 #4 | Bridge and approach to Little Rancheria (MP 670). |

98/37 #42	Burwash Landing (MP1093). Inside of chapel. I use to go to church there on Sundays, from the Donjek River. This way, I could speak French once a week and listen to classical music on big 16 rpm records left by the Americans. I met Father Rigaud in Haines Junction in my 1997 trip. He didn't recognize me after 49 years. I did remember him. But he's much older and changed quite a bit; not like me!
