HOW TO USE THE INDEX TO BEST ADVANTAGE

Attached to the last leaf of each Printed Index is a Manilla Extension, projecting slightly beyond the outer cover, thus forming a flexible cover. This greatly facilitates handling, and also preserves the margin from soiling, dog-earing or tearing. Put your last three fingers under the extension, your thumb on the marginal letter, and bend the leaves a little, when the second letter will show on the upper margin, on which put your first finger; then remove your thumb and the book will open to the division required.

The lower margin shows the first letter of the surname, and when opened at any letter exposes to view the upper margin which gives the second letter. The dots at the left of the upper margin letters denote that the division is on the left-hand page.

The first two letters of the surname are always printed, so that the person indexing requires to write only the balance of the name. In the larger capacities the first three letters are printed in most of the subdivisions.

Commence indexing individual names at top of a division, and firm, corporation, or other names at bottom of a division, as shown in the cut, except when a division is continued on next page, in which case fill the first page in the same manner as a division before using a continued page. When a page or division is thus filled draw a red line to separate the individual and firm names.

To find names, look for the last initial of the Christian name in the first, second or third column, as the case may be. For firm and other names, look at bottom of page or division. By noticing these points a name can be found almost at a glance, and the annoyance of having to run down a column of names the second time is entirely avoided.

N. B.—The divisions of GRAVES' PRINTED INDEX are made with great care, and after much study and experience, and by use have proved remarkably accurate. But to guard against all contingencies, extra pages are placed at the end of each book, to be used in case a division should fall short, which, however, will seldom occur.

These Indexes are made of best quality of paper, well and substantially bound, with wide Russia backs and corners, cloth sides, gilt roll, and are strongly sewed with the best linen thread obtainable. They are in truth the neatest and strongest made Indexes in the market. Recognizing the fact that an Index receives more handling and hard usage than any other book on the desk, and that the dilapidated, worn out Indexes, so generally seen are proof that very few are properly bound, we shall manufacture the Printed Index in a strong and durable manner sufficient for both use and abuse.

Those who have heretofore used the Graves' Printed Index merely for Ledger Index, will find it equally well adapted to various other purposes, such as

INDEX TO LETTER, ORDER OR INVOICE BOOKS, REGISTER OF MAIL ORDERS, MAILING LISTS, ADDRESS, RATING AND INFORMATION BOOKS, PETTY LEDGERS, SUSPENDED ACCOUNTS, VOUCHERS, ETC.
 IN FACT, GRAVES' PRINTED INDEXES ARE ADAPTED TO EVERY PURPOSE WHERE CONVENIENT ALPHABETICAL ARRANGEMENT IS DESIRED

†The 1 M Cap is also carried in stock, bound in Full Black Cloth at same price

On those designated "L. T." the initial letters are stamped in gold leaf on leather tabs, and on all others the initial letters are printed on drab vellum. Those which regularly have vellum tabs can be furnished with leather tabs at 50 cents additional to the list price.

Of those with Double Columns for Names, the ¾ M Cap, 1 M Cap and 1½ M Demy have the subdivisions printed in both columns on the page, but all other double column styles have the subdivisions printed in left hand column only. The three sizes mentioned are thin enough to place inside the Ledger cover when desired.

Special sizes and capacities—ruled and bound to order only. All of the sizes and styles above mentioned (except those with double columns for names) and, in addition, those mentioned below, can be made to order with any style of perpendicular rulings and printed headings, to suit individual requirements.

Of these special styles, those designated * have the subdivisions Aa, Ab, Ac, etc., printed on the left hand page only, thus allowing the double or open page for entries. All others have the subdivisions printed on each page. The width available for perpendicular rulings and printed headings on each page (exclusive of trimming and marginal cuttings) is 7 inches in Cap size, 7½ inches in Crown, 9½ inches in Demy, 10½ inches in Medium, or 12½ inches in Double Cap.

In Name Column, "M" stands for *thousand*; thus—"5 M Cap" means five thousand name Index, Cap size; "2 M Demy," two thousand name Index, Demy size; and so on. An examination of above table will show the number of lines to be much greater than the estimated capacity. The *printed* lines will give the average capacity claimed, and the *blank* lines will provide for varying proportions in different localities. The cut on opposite page shows the ruling of *Regular Stock* with *Space for Residence or Remarks*, and with but *one column* for names on a page. This is the most desirable and popular style for general use.
