En route in from Haggart Creek Tuesday, Ed. Barker and party found Burns seriously ill at his cabin at the junction of Haggart Creek and the McQuesten River. He had been ill for several days and so weak he was unable to cut wood for his stove. He had burned up a number of boxes in his cabin and other material in an attempt to keep warm.

First aid was administered to the sick Sourdough by Miss V. Page, R. N., who was returning from a visit to Haggart Creek with the Barker party. Four hours were spent at Burns! cabin preparing him for the long trip to town. Barker got in at 4 a. m. Wednesday morning when the old timer was rushed to the hospital where he passed away Thursday

morning. For twenty years Bobbic Burns had lived at the same place by the McQuestion River where he hunted and trapped. He was well known by all residents of this district, especially by those who travel regularly in and out from Haggart and Dublin. Further details will be published after

the funeral.

"HARD TO BELIEVE" WEATHER HERE

Mayo & district is undergoing what many veteran Mayoites believe is one of the finest, mildest fall periods ever experienced here. All week practically the temperature has been above zero while it was even thawing has out on Wednesday. To date there has been no snow to speak of with roads and trails in perfect condition.

Caribou are now fairly numerous throughout the district with many hunters reporting good bags of caribou after hunting expeditions. Hunting caribou, these days, seems to be the most popular diversion around this neck of the woods.

GIVEN GAY SENDOFF Mayo's first band of recruits got away in

a body, by plane, Wednesday morning. But before leaving the silver volunteers we were given a gay sendoff both up the hill and in town

A dance in their honor was held last Saturday night up at the Calumet where a gala

time was spent by all present, the festivit-ies Lasting until 7 o'clock in the morning. The night before they left, the volunteers were guests at a gay farewell party in their honor at the home of Mr. and Mrs. Ed. Kimbel. Those who got away on Wednesday's plane

were Roy Thomas, Billy Boyle, Jack Cook, Bill Lamb, Louis Kazinsky, all ex-T. Y. employees at the Calumet and E. F. McDonald, of Mayo.

Although sorry to leave Mayo and many pleas ant memories of the Silverland behind, never theless the silver contingent was anxious to get under way with the hopes of soon being able to take a crack at Herr Hitler and Co. Jack McCrimmon, who is also a former T.Y miner at the Calumet, has also signed up but is waiting for the final word on his medical exam from the coast before being able to a1head south. Jack would like to have gone ong with the gang Wednesday but expects to catch up with them at the coast very soon. Although those leaving this week were the first to leave here under the new Yukon recruiting setup, a number of other well-Known

Silverites have already gone from this dis-trict to join up with the colors outside, on their own hook. Actually the first young man to leave this

camp and proceed outside on his own to join up was Norman Whitman, former master mechanic at the Elsa. Norm left here shortly after the war broke out last fall, joined the Roy-al Canadian Air Force and is now in England on active service.

Another former popular young Mayo man now serving with the colors on active duty in England is Roy Hallin, erstwhile member of the local radio station staff.

HOSPITAL NOTES: Neil Keebke was in the hospital for a few days last week but is now back on the job again. George Bacon came in from the Elsa Tuesday night to spend a few days in hospital with lumbago.

Mrs. Robinson, who had been in the hospital recently, left on last Sunday's plane for Dawson to enter St. Mary's Hospital there. Mrs. Robinson, one of the oldest pioneer wom en in this district, regretted leaving Mayo and her many friends here.

For the time being Art is acting Corporal in his unit. He writes that he is up at 6 a. m., breakfast is at 6.30 and parade called at 7.40. "You have to hustle to make it, too," Art writes.
