Violation Type as a Percentage of Total Number of Actual Incidents, by Yukon Community, 2017

Statutes violations.

- Comparing 2017 to 2016, the total number of criminal incidents in Yukon decreased by 281 incidents, or 3.1%. The largest percentage decrease was in Carmacks at 22.4%; from 192 incidents in 2016 to 149 incidents in 2017.
- In 2017, *property crimes* represented the highest proportion of all violations in all Yukon communities (with the exception of Teslin where the proportion was the highest for '*other' Criminal Code violations*).

The number of actual incidents refers to the total number of incidents reported to the police minus incidents proven to be unfounded following preliminary investigation in any given year. Police- reported statistics may be affected by differences in the way police services deal with minor offences. In some instances, police or municipalities might choose to deal with some minor offences using municipal by-laws or provincial provisions rather than Criminal Code provisions. Differences in Police service's priorities, policies, procedures and enforcement practices may also have an effect.
