About the Yukon Real Estate Report

The Yukon Bureau of Statistics first published the Yukon Real Estate Report in 1977. The report is developed from an analysis of administrative data on all real estate transactions occurring anywhere in Yukon, with the exception of "not-at-arm's-length" transactions ("not-at-arm's-length" transaction values do not reflect market prices). All single and multiple-residential property transactions, as well as commercial and industrial property sales are included.
