

## Population Report Second Quarter, 2021

### Highlights:

- The estimated population of Yukon on June 30, 2021 was 43,118; an increase of 920, or 2.2%, compared to the revised figure for June 30, 2020 (42,198).
- Comparing June 30, 2021 to June 30, 2011, Yukon's population increased by 7,659, or 21.6%. The population of the Whitehorse area increased by 6,650, or 24.4%; Dawson City increased by 375, or 19.5%; and Watson Lake increased by 26, or 1.8%.

### Notes on methodological changes:

Official population counts prior to June 2010 were based on information in Yukon Health Care Insurance Plan (YHCIP) files and a semi-annual health care update survey that estimated the number of plan members who were no longer Yukon residents. In 2010, the estimation model was revised and the population counts for June 2010 through December 2014 were derived by tracking changes in YHCIP files and other administrative data files. In 2015, the model was further revised to make the approach more comprehensive and to improve accuracy based on information in all available and applicable administrative data files of the Yukon government. In addition, the total population count of April 2011 was calibrated to a census-based estimate adjusted for net undercoverage.

In 2020, the model was updated by prioritizing residential addresses over mailing addresses in the assignment of communities. This update allowed for separate reporting of population estimates for Johnson's Crossing and Mendenhall, and changes in the organization of Whitehorse subdivisions. The changes have been applied to all population estimates from June 2019 onwards.

Changes in community and subdivision populations from one time period to another are not only due to natural population change and migrations, but may also be due to the reassignment of residential addresses as additional administrative data became available.

All monthly estimates are as of the last day of the month. The June estimates represent annual figures.

Due to the change in methodology in 2015, figures presented in this publication for the period from April 2011 onwards are not strictly comparable to figures prior to that period.

### Monthly Population, June 30, 2001 to June 30, 2021

- From 2004 through 2014, Yukon's population increased almost steadily in most quarters of every year except in 2013. From 2015 onwards, the upward trend in population growth gained momentum with very high growth rates recorded in many quarters, most of them being in the last five years. The June 30, 2021 population at 43,118 is the new record-high<sup>1</sup> for Yukon.
- On June 30, 2021, Yukon's population (43,118), increased by 117 people, or 0.3%, from the revised figure for March 31, 2021 (43,001), and increased by 920 people, or 2.2%, from June 30, 2020 (42,198, revised).

<sup>1</sup> Accurate population counts during the Gold Rush are not available. However, the population figure in the first Census for Yukon (1901) was 27,219.

<sup>1</sup> Indigenous population includes those who provided band numbers and/or self-identified as First Nations, Metis or Inuit in Yukon government administrative records.

<sup>2</sup> Community-level estimates include populations within the municipalities and surrounding area up to halfway to the next municipal boundary along the relevant highway or road, with the exceptions of: Braeburn, Champagne, Swift River and City of Whitehorse.

<sup>3</sup> Whitehorse Area includes City of Whitehorse and surrounding areas as defined on page 3.

<sup>4</sup> Other includes Braeburn, Champagne, Swift River, Keno and Stewart Crossing.

## Annual (June 30<sup>th</sup>) Indigenous Population Growth, 2019 to 2021

The Indigenous population (on the basis of self-reported identity) increased by 32 from 9,514 in 2020 to 9,546 in 2021. This represents an annual growth rate of 0.3%.

# Population by Subdivision in Whitehorse Area

**Note:**  
 Subdivisions are assigned based on boundaries provided by the City of Whitehorse. Areas outside of the City of Whitehorse boundaries are assigned using Statistics Canada's Census Subdivision (CSD) boundaries within the Census Agglomeration of Whitehorse.  
 Changes in subdivision (City and CSD subdivision) populations from one time period to another are not only due to natural population change and migrations, but may also be due to the reassignment of residential addresses as additional administrative data become available.
