

Inter-jurisdictional Employees 2020

Highlights:

- In 2020, a total of 2,320 non-Yukon residents received \$98.8 million in employment income from Yukon.
- Yukon's Mining, quarrying, and oil and gas extraction sector employed 870 non-Yukon residents in 2020, the most of any Yukon industry sector.
- In 2020, non-residents' earnings in Yukon (\$98.8 million) were \$62.6 million higher than Yukon residents' earnings outside of Yukon (\$36.1 million).

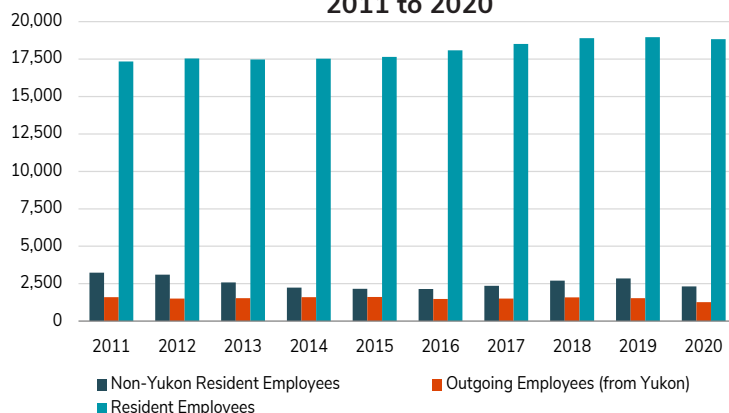

About Inter-jurisdictional Employees

- Inter-jurisdictional employees are individuals who maintained a permanent residence in one province or territory during the year as indicated on their T1 tax return, while reporting earnings from a different province or territory during the year as indicated on a T4 Statement of Remuneration. Incorporated self-employed individuals may be included, but only if they issue themselves a T4 slip.
- Only Canadian employees aged 18 or older who earned more than \$1,000 (in 2016 constant dollars) are included.
- Inter-jurisdictional employees **incoming** (to Yukon) are individuals who received T4 earnings from Yukon but reported a different province or territory of residence on their T1 tax returns; inter-jurisdictional employees **outgoing** (from Yukon) are individuals who identified as residing in Yukon but received T4 earnings from other provinces/territories; and **resident** employees both resided in Yukon and received all T4 earnings from Yukon during the reference year.
- Estimates in this report are derived from the T1 and T4 tax files and exclude late and re-assessed taxfilers. Data for the 2020 tax year is the most recent available.
- Inter-jurisdictional employment may represent a significant source of income for home provinces or territories of inter-jurisdictional employees, and a significant source of labour for the provinces or territories in which they work.

In 2020, there were 2,320 non-Yukon residents who received employment income from Yukon, while 1,270 Yukon residents received employment income from other provinces or territories. There were 18,830 employees who resided in Yukon and received all their employment income from Yukon.

Non-Yukon residents received a total of \$98.8 million from Yukon as part or all of their employment income in 2020; Yukon residents received \$36.1 million from other provinces and territories as part or all of their employment income in 2020; and Yukon residents who only earned employment income in Yukon received \$1.1 billion in 2020.

Number of Inter-jurisdictional Employees,
2011 to 2020

Over the ten year period from 2011 to 2020, on average each year, 2,573 non-Yukon residents earned employment income from Yukon and 1,524 Yukon residents earned employment income from other jurisdictions.

Comparing the most recent five-year average (2016 to 2020) to the previous five-year average (2011 to 2015), the number of non-Yukon residents earning income from Yukon decreased by 190, or 7.1%. During the same period, the number of Yukon residents earning employment income from other jurisdictions decreased by 96, or 6.1%.

2012	3,110	2,170	940	1,510	880	620	17,540	8,630	8,910
2013	2,590	1,730	860	1,540	920	620	17,470	8,500	8,970
2014	2,240	1,480	750	1,600	960	640	17,530	8,480	9,060
2015	2,160	1,390	770	1,610	980	630	17,640	8,510	9,130
2016	2,150	1,370	780	1,480	850	630	18,090	8,770	9,310
2017	2,360	1,550	820	1,510	880	640	18,510	8,960	9,540
2018	2,710	1,860	850	1,590	900	690	18,890	9,210	9,680
2019	2,850	1,920	930	1,530	860	670	18,960	9,210	9,750
2020	2,320	1,650	670	1,270	680	580	18,830	9,100	9,730

Note: Due to the mobile nature of their work, inter-jurisdictional employees may be more likely to file annual personal income tax returns late. These estimates are subject to revision.

Source: Statistics Canada Table 14-10-0448-01

In 2020, 2,320 employees, who worked in Yukon, reported residency elsewhere in Canada on their income tax return. Of them: 71.1% were males (1,650 incoming employees) and 28.9% were females (670 incoming employees). Comparing 2020 to 2019, the number of non-Yukon residents receiving employment earnings from Yukon (2,320) decreased by 530, or 18.6% (from 2,850 incoming employees in 2019).

Of the 1,270 Yukon residents who received all or part of their employment income outside of Yukon during 2020, 53.5% were males (680 outgoing employees) and 45.7% were females (580 outgoing employees). Comparing 2020 to 2019, the number of Yukon residents receiving employment earnings outside of Yukon decreased by 260, or 17.0% (from 1,530 outgoing employees in 2019).

Of the 18,830 Yukon residents who received their entire employment earnings in Yukon during 2020, 51.7% were female (9,730 Yukon resident employees) and 48.3% were males (9,100 Yukon resident employees). Comparing 2020 to 2019, the number of Yukon resident employees decreased by 130, or 0.7% (from 18,960 Yukon resident employees in 2019).

Source: Statistics Canada Table 14-10-0451-01

Over the 10-year period from 2011 to 2020, residents of British Columbia consistently accounted for the highest number of non-resident employees working in Yukon, ranging from a low of 980 employees in 2017 to a high of 1,630 employees in 2011.

In 2020, residents of British Columbia working in Yukon (1,150 employees), made up 49.6% of the total number of non-Yukon resident employees in Yukon; followed by residents of Alberta (470 employees, or 20.3%) and residents of Ontario (300 employees, or 12.9%).

British Columbia was the most common destination for Yukon residents who received employment income from work outside of Yukon in each of the past ten years, ranging from a low of 590 employees in 2015 and 2020 to a high of 750 employees in 2018.

In 2020, 46.5% of the Yukon residents with employment income from outside of Yukon worked in British Columbia (590 employees), followed by Alberta (15.0%, 190 employees) and Ontario (16.5%, 210 employees).

Net Inter-jurisdictional Employees, (Incoming to Yukon less Outgoing from Yukon), Selected Provinces/Territories, 2011 to 2020

Source: Statistics Canada Table 14-10-0451-01

Note: Data for incoming inter-jurisdictional employees from NWT were suppressed for 2011, 2012, and 2013.

When considering net inter-jurisdictional employee movement (the difference between incoming non-resident employees in Yukon and outgoing Yukon residents working elsewhere), British Columbia residents working in Yukon comprised the highest net number of inter-jurisdictional employees to Yukon each year over the past ten years.

Conversely, over the same period, the Northwest Territories received the highest net number of inter-jurisdictional employees from Yukon in all years that data were available (2014 to 2020).

Notes:

When an incoming employee had T4 earnings in more than one industry, the employee will be counted in the industry of the job in which the incoming employee has the highest T4 earnings; when an outgoing employee has T4 earnings in more than one industry, the employee will be counted in the industry of the job in which the outgoing employee has the highest T4 earnings.

Annual allocation of the number of employees by industry may have changed due to reassignment of industry classification of the employing entity.

x = data suppressed Source: Statistics Canada Tables 14-10-0450-01 and 14-10-0448-01

Of the 2,320 incoming inter-jurisdictional employees in 2020, the *Mining, quarrying, and oil and gas extraction* industry sector in Yukon employed the highest number of non-resident employees (870, or 37.5% of the total), followed by *Public administration* (410, or 17.7%); and *Construction* (250, or 10.8%).

Over the ten-year period from 2011 to 2020, of non-resident employees who received employment income in Yukon, on average, the highest proportion worked in the *Mining, quarrying, and oil and gas extraction* industry sector (749 incoming employees); followed by *Public administration* (405 incoming employees); and *Accommodation and food services* (359 incoming employees).

Of the 1,270 outgoing inter-jurisdictional employees in 2020, the highest number of Yukon residents who received employment income from other jurisdictions, worked in the *Accommodation and food services* industry sector (170, or 13.4%); followed by *Educational services* (160, or 12.6%); and *Public administration* (140, or 11.0%).

Over the ten-year period from 2011 to 2020, of Yukon residents who received employment income outside of Yukon, on average, the highest proportion worked in the *Construction* industry sector (230 outgoing employees); followed by *Accommodation and food services* (194 outgoing employees); and *Mining, quarrying, and oil and gas extraction* (162 outgoing employees).

Aggregate T4 Earnings Inside and Outside of Yukon for Inter-jurisdictional Employees and Resident Employees, 2011 to 2020

Aggregate T4 Earnings Inside and Outside of Yukon for Inter-jurisdictional Employees, 2011 to 2020

In 2020, non-resident employees' earnings in Yukon totalled \$98.8 million. This accounted for 65.8% of their employment earnings in 2020 (inside and outside of Yukon), and represents 8.1% of the total employment earnings in Yukon (\$1,224.1 million) in 2020.

Earnings of non-resident employees in Yukon ranged from a low of \$67.4 million in 2016 to a high of \$116.3 million in 2012 — a difference of \$48.9 million.

Over the ten years from 2011 to 2020, on average, 8.1% of the total employment earnings in Yukon was received by non-residents. This proportion ranged from a low of 6.3% in 2016 to a high of 10.8% in 2012.

Of the total employment earnings (inside and outside of Yukon) of incoming inter-jurisdictional employees over the past ten years, an average of 66.3% was earned in Yukon.

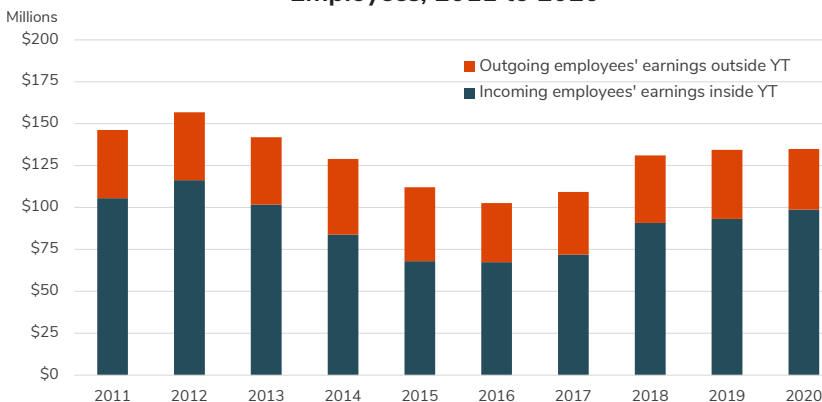

In 2020, outgoing Yukon residents earned \$36.1 million in employment income outside of Yukon, in addition to \$27.8 million earned inside of Yukon.

Yukon resident employees' earnings from outside of Yukon in 2020 (\$36.1 million) represented 56.5% of their total employment income in 2020 (\$63.9 million). Over the ten-year period from 2011 to 2020, the ratio was lowest in 2017 (54.3%) and highest in 2015 (61.8%).

From 2011 to 2020, total employment earnings of Yukon residents who only worked in Yukon ranged from a low of \$911.2 million in 2011 to a high of \$1,097.6 million in 2020.

In 2020, per-capita employment earnings of Yukon residents who worked only in Yukon (\$58.3 million) increased by \$1.9 million, or 3.4%, from 2019 (\$56.4 million). Prior to the pandemic, the average annual growth rate of per-capita employment earnings had remained relatively flat at 0.8% between 2011 and 2019.

Aggregate T4 Earnings Earned Outside Province or Territory of Residence, by Incoming and Outgoing Inter-jurisdictional Employees, 2011 to 2020

Source: Statistics Canada Tables 14-10-0448-01, 14-10-0449-01 and 14-10-0451-01

In 2020, non-residents' earnings in Yukon were \$98.8 million, which was \$62.6 million higher than Yukon residents' earnings outside of Yukon (\$36.1 million).

This was mainly attributable to the difference in net earnings from the Mining, quarrying, and oil and gas extraction industry sector in which non-resident employees earned \$49.3 million more in Yukon than Yukon residents earned outside of Yukon. The second most significant contributor was Public administration, in which this difference was \$5.6 million; followed by Construction, in which this difference was \$5.2 million.

In 2020, of the non-resident employees in Yukon, British Columbia residents received the highest earnings at \$49.9 million, followed by Alberta residents at \$19.6 million and Ontario residents at \$10.9 million. Employees from British Columbia received 50.5% of all incoming employees' earnings from Yukon (\$98.8 million), followed by those from Alberta (19.9%) and Ontario (11.1%). Earnings from the remaining provinces and territories accounted for \$18.3 million, or 18.3% of all incoming employees' earnings from Yukon.

Over the ten years from 2011 to 2020, incoming employees from British Columbia consistently earned the highest proportion of all incoming employees' earnings from Yukon, ranging from a low of 43.4% in 2018 to a high of 57.1% in 2011.

In 2020, Yukon resident employees working in other Canadian jurisdictions earned a total of \$36.1 million. Of this amount: \$16.8 million (45.6%) was earned in British Columbia; \$5.8 million (16.1%) was earned in Alberta; \$5.5 million (15.1%) was earned in Ontario; and \$2.9 million (7.9%) was earned in the Northwest Territories.

Over the past ten years from 2011 to 2020, Yukon residents with employment income from elsewhere in Canada consistently earned the highest proportion in British Columbia, ranging from a low of 29.8% in 2015 to a high of 46.5% in 2011.
