WHITEHORSE BUSINESS MEN FORM CLUB FOR WELFARE OF COMMUNITY.

At a recent meeting attended by many of the younger men of the town, a new organization was born whose avowed purpose is to work for the betterment of Whitehorse.

As yet unnamed, this organization will take its rightful place as a booster for the town. The recent growth of this community has brought new problems and new needs. It is gratifying to know that our younger citizens are willing to accept some of the responsibility of leadership.

One of the first things this new organizations did was to undertake the fourth Victory Loan Campaign in Whitehorse and the surrounding territory.

We have been grateful for the work done in the past by Messrs. Taylor, Simmons, Phelps, Moore, Richards and others, but we are pleased to see the younger men step up to carry on the fine work.

Among those present at this meeting were Messrs. Homer Meers, Jack Barber, Albert Taylor, Stuart McPherson, Geoff Bidlake, Chuck Beaumont, Jimmy Fox, Ross Travers, Owen Williams and Bill Gordon.

It is expected that many others who were unable to attend the first meeting will join at further gatherings.

In connection with the forthcoming Victory Loan Campaign which is due to commence April 26th, Mr. R. G. Lee has agreed to accept the chairmanship, and the Rev. L. G. Chappell will carry on as secretary. With these two men working with the others we can be sure that results in Whitehorse will go well over the top.

FIRST TRIBAL-CLASS DESTROYER JOINS ROYAL CANADIAN NAVY AND ARRIVES IN ENGLAND.

OTTAWA — Navy Minister Macdonald said Saturday that the Iroquois, first Tribal-class destroyer to join the Canadian Navy and the "strongest striking force" in that fleet, has arrived safely in England after her maiden Atlantic round-trip.

She is now assigned to service overseas.

The Iroquois slipped into an east coast Canadian port recently, and stayed only long enough for minor adjustments and to take on stores.

Her sister ship, the Athabaskan, is undergoing trials now and will soon join her. Four more are now on the ways. When completed and put into service the Royal Canadian Navy will have an impressive fleet under its control.

PHONING THROUGH THE GOOD NEWS: ANOTHER ALLIED CONVOY REACHES MALTA.

The telephone picket on the Malta docks, Peter Parker of Portsmouth, England, announcing the arrival of another Allied convoy at Malta with vital supplies for its heroic inhabitants.

FORMER FRENCH PREMIERS TRANSFERRED TO NAZI PRISONS AS HOSTAGES.

The Berlin radio reported Sunday night the transfer to German prisons of former French premiers, Edouard Daladier and Leon Blum, and the former Allied military leader General Maurice Gustave Gamelin, because of "planned Anglo-American coup de main" which might free them. Thus does Germany add three prize hostages to the hundreds of thousands already handed over to the Reich by the puppet Petain-Laval regime as well as millions of prisoners now labouring in German military plants.

It has also been officially disclosed for the first time that General Weygand and Georges Mandel, former French colonial minister, had previously been disposed of in a similar manner.

Col. Cornwall left Monday by C. P. A. plane Monday on a business trip to Edmonton and the coast. He expects to be away for the next few weeks.

MORE CANADIANS ARRIVE IN BRITAIN AFTER AN UNEVENTFUL TRIP.

A BRITISH PORT. — Reinforcements for the Canadian army, the Canadian Women's Army Corps and the R. C. A. F. arrived recently at this port after a safe and uneventful crossing of the Atlantic, it was disclosed Monday.

The C.W.A.C. group included personnel trained in clerical, signals and mechanical work.

With them came reinforcements for infantry, artillery, engineers, armored corps and other Canadian army services.

FOUNDER OF TOC H. DIES IN ENGLAND.

HENFIELD, England. — Rt. Rev. Neville Stuart Talbot, vicar of St. Mary's, Nottingham, and assistant bishop of Southwell, died Saturday.

He was one of the founders of Toc H, an interdenominational social service organization formed during First Great War in memory of the bishop's brother, Gilbert, who was

DEVASTATING AIR ATTACKS ON KIEL, ESSEN, RENAULT WORKS BLASTED.

A mighty force of R. A. F. bombers, including many Haifaxes and Wellingtons of the R. C. A. F. bomber group, smashed at German Baltic naval base and U-boat yards at Kiel Sunday. In the words of the air ministry the raid was carried out "in great strength" indicating that the attack was as heavy if not heavier than the raid the previous night on the Krupps works at Essen which cost the Allies 21 bombers five of which were Canadians. In the Kiel attack 12 bombers failed to return including three Canadians. It was the 71st raid on Kiel but the first since October 13, 1942.

Saturday night the bombers struck heavily at Essen with concentrated bombardment. During the peak of the outbreak 2000-pound bombs were bursting on the target at the rate of one every ten seconds.

A dispatch from Paris stated that as a result of the air raid on Renault's works Saturday night great damage was inflicted and claimed that the injured numbered more than a thousand with over 200 of them seriously hurt. An underground railway station, packed with hundreds of people received a direct hit.

WHEN DUTY CALLS

We are now in the fourth year of this war. All the high sounding phrases about why we fight have become the one simple fact that we must win. In spite of increasing good news from overseas you and we know that we have yet before us a long road to travel before our enemies are beaten into unconditional surrender. One success, or two or three does not mean the greatest war machine in history has been defeated. We cannot be foolish enough to relax our efforts when we have only begun the first step towards Berlin and Tokyo.

We all realize the grave responsibilities confronting our armed forces. What we of the civilian population must likewise realize is the financial side of the war. This is OUR responsibility and one which we cannot avoid and must not shirk.

On Monday, April 26, the fourth Victory Loan campaign opens when government bonds for the greatest investment in the history of Canada, running into billions of dollars, will be offered to the public. Two issues will be offered at a price of 100 per cent and dated May 1, 1943.

One issue will be for 3 1/2 years, maturing November 1, 1946 and bearing interest at 1 3/4% per annum. The other will be for 14 years, maturing May 1, 1957. The interest rate on these bonds will be 3% per annum. The short term loans will not be redeemable before maturity. The long-term bonds will be redeemable at the option of the government with accrued interest on or after May 1, 1954, on 60 days' notice.

The three per cent bonds will, as on previous occasions, be offered in denominations of \$50, \$100, \$500 and \$1000 in order that every Canadian may participate in subscribing to the loan.

It is a huge amount which has to be raised on this occasion but not at all out of proportion to the stupendous task which we have of necessity been forced to undertake and must carry through to a successful conclusion. We have got to achieve a decisive victory over our enemies be the cost what it may. It is our

only salvation from servitude and despotism. The enemy is not licked by a long shot yet and it will take all our available resources, financial and otherwise, to enable us to win through to victory.

A strong local committee has been organized the members of which have already been making the necessary preliminary arrangements in order to be prepared to go into action when the campaign officially opens. You will all be hearing from them in the near future and provided the response to the loan is on a parity with the energy which the local committee are putting into their work it should not be difficult for our quota to be reached on this occasion.

Library Board Annual Report

Whitehorse Public Library, for year ending March 31st, 1943.

The Public Library, which is under the management of Whitehorse Chapter, Imperial Order Daughters of Empire reports a banner year due to increase in population. The book exchange department has been one of the busiest offices in town, and the Reading Room, with its tables well stocked with the latest magazines and papers and letter-writing materials, has been patronized daily.

Records show that 4,044 books were in circulation, of which number, 417 were loaned to out-of-town borrowers.

The following magazines and newspapers have been subscribed to:

- National Geographic,
- Canadian Geographic,
- Scarlet and Gold,
- American,
- Colliers,
- Liberty,
- New World,
- Maclean's
- Saturday Evening Post,
- Time,
- Wide World,
- Canadian Heroes,

Family Herald and Weekly Star, Vancouver Daily Province, Whitehorse Star, "Echoes."

Bundles of used magazines have been given to the army camps. Men in uniform have been given the privileges of the book department at reduced rates.

The Library Board appreciates the several donations of books and newspapers, during the year, from citizens and visitors.

On March 3rd, fire broke out in the Chapter Rooms temporarily occupied by the American Red Cross as a canteen, and practically destroyed that portion of the building. The Library wing of the building was badly damaged, chiefly by water.

The use of the small Indian Day School to house the books and as an exchange office, has been granted by the Anglican Church.

Respectfully submitted,
EVELYN M. MacBRIDE,
Sec'y-Treasurer.

Not Easily and Not Soon

We will win this war, but not easily, and not quickly, as many people are all too ready to believe. The overwhelming Russian successes of the last weeks and months have cut deep into the myth of the invincibility of German arms, but they have given us no reason to discount the power that still remains in them. A year ago we made that mistake. We assumed that a discomfited army was a disastrously beaten army, only to learn that, for all the tremendous blows it had absorbed, it was still a striking force almost able to achieve the impossible. To think differently now is to deceive ourselves to our own possible hurt. Germany is still losing in Russia only the lands and resources that she took from Russia. Even the vast wastage in man power is only partially her own. A material part of that sacrificed man power was drawn from without her own borders. Nowhere is Germany fighting on her own land or with her own unaided resources.

We can, however, say this. We have gone so far on the road that ultimate victory for Germany is not now a possibility unless our own shortcomings should concede it to her. But we must also say we have not gone far enough to see her early defeat. Germany has been checked. She has not been checkmated. There are indications that her faith in ultimate victory has been shaken. There are even minor indications that, if the terms were generous enough and left her enough of the spoils, she might consider a crafty peace while awaiting a better opportunity to further her belief in her own national destiny. There have

been no indications whatever that any faction of the German people are ready for unconditional surrender. Germany must go a long way yet before she becomes desperate. She still realizes the strength of the cards she holds, still is prepared to play them out in the hope that her own courage and determination will

Germany will never be decisively be stronger than that of her enemies, beaten by armies fighting outside the Reich. Her people know that the conquered buffer states that lie between them and their enemies must suffer greatly before Germany suffers at all, and there is no softness in them that would spare these unoffending countries. The loss of Russian territory, the loss of Italian or French territory, or of Polish or Czech, will not affect them as would the loss of their own. The dagger must strike deep to touch Germany's heart.

There is only wishful thinking to give support to the belief that there is any wide cleft between the people of Germany and Nazism's vicious creed. There was nothing hesitant or fearful in Hitler's recent Munich proclamation: "The gigantic mass of the German people is standing behind the new Reich and the National Socialist world that is inspiring it." There is nothing wavering in the cold challenge: "The party has to enlighten in places where enlightenment is being rejected. It has to break terror with tenfold terror. It has to extinguish traitors, whoever they be and whatever their disguise who follow aims hostile to the people."

Hitler knows his strength while he holds those bastions about Germany, and he makes no secret of his determination to use them to his own ends.

"We shall not hesitate for a single second to call upon the countries that are responsible for the outbreak of this war to do their bit in the fatal struggle." So he prophesies the future for France and Czechoslovakia. "We shall not scruple about foreign lives at a time when such hard sacrifices are exacted from our own lives."

So he outlines the fate of all captive countries.

It was on February 24 that President Inonu of Turkey warned his people that they could hardly hope to escape active involvement in the war. Yet the Turkish people know that they have no will to attack any one. Their fear is of being attacked. Rumors that will not down speak of German troop movements into Spain, where Franco's army of a million men, well fed and well equipped amid the prevailing starvation, still threaten our fortunes in North Africa. At both ends of our long life line the enemy is poised for possible attack.

Yes, we will win the war—but not easily, and not soon, and not without effort, and not without complete devotion. Let us stop thinking of easy and early victory and prepare for the grim days of decision that face us now.

—J. L. RUTLEDGE.

The Department Of Trade And Industry

HAS FOR ITS FUNCTIONS

(A) The marketing of British Columbia's natural and manufactured products extra-provincially and abroad.

Assisting and advising in all problems relating thereto.

(B) Compiling and publishing complete and accurate statistics of British Columbia's industrial and economic aspects.

Undertaking and presenting surveys of industrial and economic questions.

(C) Fostering and developing recreational travel. Giving dependable information to prospective settlers.

(A) THE BUREAU OF INDUSTRIAL AND TRADE EXTENSION maintains close contact with all Canadian Government Trade Commissioners, and works in harmony with the Dominion Government, the Canadian Manufacturers' Association, Boards of Trade, and all interested bodies. It has been instrumental in finding new outlets to replace disrupted markets, and is already planning for the day when peace-time relations will be resumed, and peace-time contacts renewed and strengthened.

(B) THE BUREAU OF ECONOMICS AND STATISTICS is organized to present the complete picture of British Columbia's industrial situation at any time. It operates as a fact-finding and advisory body, for research in all fields of industrial and economic effort.

(C) THE BRITISH COLUMBIA GOVERNMENT TRAVEL BUREAU has been active for years in publicizing British Columbia as a recreational travel centre, and in fostering recreational travel. While shaping its policy to conform to war-time restrictions, it is still active in keeping British Columbia prominently before the travelling public of the North American Continent, against the day when those restrictions will be removed. It is also an active and highly successful agency for settlement.

Since the outbreak of hostilities, the Department of Trade and Industry has maintained a representative in Ottawa, who is in constant touch with all purchasing agencies of war materials. British Columbia was the first of all the provinces to take such action, and the results are clearly apparent in the volume of contracts placed with British Columbia manufacturers and producers.

DOMINION GEOLOGISTS AND REPRESENTATIVES U. S. OIL CORPORATIONS HEADING NORTH IN SEARCH OF "LIQUID GOLD"

A party of 15 or more, consisting of Dominion geologists and representatives of six United States oil corporations will be arriving in the north in the near future to prospect for oil in the Mackenzie river area between Providence and Fort Norman according to a report emanating from Ottawa. It is understood the necessary permission to make the trip for those members of the party not government officials is being procured from the Dominion government.

U. S. ASSISTANT SECRETARY OF STATE DECLARES NO REASON TO FEAR RUSSIA.

READING, Pa.—Adolf A. Berle, United States assistant secretary of state, said Sunday night there is no reason to fear Soviet Russia, declared there is no plan to build buffer states against her and called for post-war co-operation with the Soviets.

Without mentioning Soviet claims to the Baltic states, part of Poland and Bessarabia, he said that Russia "will not, in our judgment, become the victim of any urge to seize great additions to her already huge empire." He explained that she would be busy "rebuilding her own country."

In an address to the Reading Rotary club, Berle also scored what he described as "propaganda" that Britain is "scheming and plotting to seize the trade of the world."

"We are far more likely to collaborate than we are to exclude," he said, "and another from world markets he said."

BRITISH FOREIGN SECRETARY ARRIVES BACK IN LONDON.

British Foreign Secretary Anthony Eden has arrived back in London, England, having completed his conferences in the United States and Canada. It is expected he will make an announcement in the British House of Commons later but for the moment no report is forthcoming beyond the statement that he was in high spirits and presumably well satisfied with the results of his trip.

WARNING

CANADA FACES A WOOD-FUEL FAMINE NEXT WINTER

ARE YOU one of the Canadian householders who burned tences, doors, and even flooring to keep warm in this winter's sub-zero weather?

Or perhaps you are one of the lucky ones who just managed to scrape through?

In either case, you will want to be prepared for next winter when greater hardships loom unless you take immediate action.

The shortage already has affected many communities . . . total stocks of dry wood are nearly exhausted . . . in some places the small supply of green wood cut for next winter is being used *now* to meet the present emergency.

Throughout most of Canada, fuel-wood is obtained not far from where it is consumed. Its production and distribution are the business of local citizens.

The Dominion Government recognizes that the wood-fuel shortage is so serious that even with the full co-operation of everyone in affected communities an adequate supply is not assured. Accordingly, it has been decided to stimulate the output of wood-fuel by assisting those normally engaged in its production and distribution. To this end, the following measures will be adopted

- 1** A subsidy of \$1.00 per cord will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30 1943, and held to dealers' account on that date.
- 2** The Coal Controller has been authorized to arrange in his discretion for the payment of such portion of the transportation costs as he considers proper in respect of fuel-wood, particularly in cases where dealers, to procure supplies, find it necessary to contract for fuel-wood at locations outside the area from which they normally derive their supplies. In order to obtain any such reimbursement, dealers must obtain a permit from the Coal Controller before contracting for such supplies.
- 3** The Coal Controller will repurchase from dealers at dealer's cost all commercial grades of fuel-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944.
- 4** Assistance will be given in providing priorities for necessary equipment.
- 5** Farmers now on the farm, and who leave the farm temporarily in response to this appeal to engage in fuel-wood cutting, will be deemed by National Selective Service to be carrying out their regular occupation as farmers and will be given all the rights of deferment of military service which such an occupation now carries. Such temporary absence should not, however, interfere with agricultural production.

Municipal councils, farmers, fuel dealers, individual citizens, service clubs, and all other groups in communities where wood-fuel is burned, are urged to begin at once a rapid survey of their local situation, and to take immediate action to relieve the shortage.

Soldier of Industry *Make Your Dollars Count Double*

● What do you buy with your hard-earned dollars? Food, clothing, shelter? Then they are well-spent. But, the dollars that you have invested in Victory Bonds have a double value. They are helping to train, feed, equip and transport Canada's fighting men. At the same time that your Victory Bond investments are helping your country in her time of greatest need, they are paying you good interest. And, every day you find pleasure in thinking of how much they will mean to you when the war is over.

Very soon you will have a chance to buy *more* Victory Bonds. Dollars invested in this way will be even more valuable than ever because, our fighters are on the offensive. There's a better chance than ever for an early Victory.

Think what this will mean to you and your family—to men and women everywhere who are born to be free.

Canada has sent a steady stream of men and materials to the fighting fronts. Now that we are marshalling for the attack, we must have huge reserves. It must be clear to all that the greater our available supply, our *reserve* of fighting tools, the fewer will be our losses in men.

You can help to save lives, hasten Victory, bring our men back home. You can help to assure "the four freedoms" for all—by buying Victory Bonds to the limit of your ability. You are not asked to *give* but only to *lend*. Help Canada. Safeguard your own future. Be ready to go the limit when the Victory Bond salesman calls.

ONE HUNDRED BOMBERS ATTACK NAPLES FROM FRENCH N. AFRICA BASES.

United States heavy bombers attacked Naples Sunday night in the greatest raid yet staged against this Tyrrhenian sea supply port. It was the first attack made against this port from French North African bases.

Naples had been bomber five times previously by bombers from Egypt and Libya but this attack was stated to have been four times as heavy as any previous attack. All the American bombers returned safely. Twenty-one ships were hit in the harbour as well as three submarines, a floating dock, a cluster of small vessels. Twenty-one aircraft parked on a nearby airfield were also hit.

KISKA BLASTED EIGHT TIMES IN ONE DAY.

WASHINGTON, — Carrying out the heaviest raids yet made on Kiska in the Aleutians, U. S. heavy and medium bombers poured bombs on the Japanese base in eight separate assaults, the navy reported Sunday.

At almost the same time another group of heavy bombers roared out to the western end of the Aleutians to pound the smaller Japanese installations on Attu, a small and Rocky Island.

Results of the eight attacks upon Kiska—which had been bombed 38 times in the last month—were not reported in detail. However, the navy disclosed that word from the North Pacific island chain told of bomb hits in the target area—the Japanese base.

All the bombing and fighting planes returned safely.

DEATH PENALTY FOR SABOTEURS SOUGHT.

WASHINGTON—A wartime anti-sabotage bill providing the death penalty for commission of hostile acts was passed Friday by the house of representatives after the chamber heard charges and denials that it is a potential weapon for destroying free speech and freedom of the press.

Proponents of the measure said the justice department requested the legislation because it deems existing laws against sedition and treason inadequate for wartime purposes.

To partly meet some members' objections, the house stipulated by amendment that nothing in the measure shall be construed "to prevent any citizen or citizens, or any newspapers or other publications, at any time from freely discussing or openly criticizing the domestic or foreign policies of the administration or the federal government, or any public official, or from discussing or criticizing any existing or proposed law, regulation directive or executive order."
