Subscription \$3.00 Year

CON'LR SMITH REPLIES TO CAPT. BLACK ON LOCAL IMPROVEMENTS.

Councillor A. A. Smith has handed to us for publication the following signed statement in reply to that of Capt. George Black M. P., which appeared in our issue of July 21st last:

Very obviously the letter from our Hon. Member, Mr. George Black, appearing in this paper recently, concerning the petition for local improvements, is indulgence in a not altogether neat piece of "buck-passing". As such it is hardly worthy of comment. The signees no doubt prefer not to let it pass unnoticed.

By what or under whose standards "the proper method of taking up matters with the Council" could be judged I do not pretend to know. Suffice it to say that local needs were all taken up and discussed at length at the last session of the Territorial Council. The very vague mention of incorporation, without stressing the import to the tax-payers of the town, is not so very enlightening, opening as it does a whole new field of discussion without the possibility of extensive controversy. In any event the consensus of opinion seems to be that to take steps towards incorporation at the present time would not be justifiable and that present conditions can and should be remedied, at least to some extent, by the Federal government and primarily for health reasons.

The statement that it is up to the people, including the Council member, is not wholly conclusive. The people know well enough how far the latter is able to proceed in these matters under the present set-up and are also aware from which quarter most of the opposition arises. It needs no re-telling here.

The feeling of the townspeople is that the Federal government can well afford to finance the starting of water and sewage systems in Whitehorse by using part of the \$200,000 profits derived through the sale of liquor during the past year or two and now invested in war bonds for "post-war" purposes. The people realize that the major part of this profit was secured from the sale of liquor in this particular part of the Territory. To what greater benefit or for what greater purpose could public funds be spent than for public health? And considering our "obligations" as a Territory, who is in a more advantageous position than our own member to exert pressure on our behalf upon the Federal government or, failing this, to offer some concrete form of constructive assistance, based upon a lifetime experience and with a full

DOUBLE RING CEREMONY WAS HELD IN CHRIST CHURCH LAST SATURDAY.

Christ Church, was the setting for the double ring ceremony on Saturday evening, July 29th, when Edwina Lorraine, only daughter of Mr. and Mrs. Bruce Watson, became the bride of Corporal Harold Damon, son of Mr. and Mrs. L. Damon of St. Louis, Mo., Rev. R. C. Good, M.A., B.D. officiating.

Entering the church on the arm of her father, the bride wore a floor length gown of white triple sheer and lace, with fingertip veil and carried a bouquet of sweet peas and baby's breath. She was attended by her cousin, Miss Jean Watson of Carcross, wearing a white frock with pink accessories. The room was supported by Corporal Eugene Saatzer.

Following the ceremony a reception was held at the home of the bride's parents which was attended by a large number of the townspeople and personnel of the U. S. Army.

The bride was born and raised here and is a member of one of the oldest and most respected families in this part of the Territory. We join with her host of friends in wishing the bridal couple every happiness and the very best of luck in the future.

Mr. Patty, general manager for the General McCrae interests, arrived in town yesterday from Atlin, B. C. en route to Clear Creek.

knowledge of our local conditions. Let his only suggestion so far has been incorporation and we all know that incorporation is not the only solution to our present problem.

The petition has been the result not only of the signees' desire for action but also of dissatisfaction expressed over a long period of controversy involving an offer supposedly made by the United States authorities to instal a complete water and sewerage system in the town with the Canadian government being obligated for but a portion of the cost, the payment of which to be extended over a term of years. If such an offer were indeed made, then why were the people so vitally affected not informed about it at the time and quite rightly given some say in the matter? If on the other hand, no proposal was made then even at this late date the authorities in possession of any knowledge concerning the matter should make a public statement dealing with the whole situation. To my way of thinking the people have a right to be fully informed on the matter.

FIVE U. S. SUB-ARTIC AIR BASES MAY BE USED BY CANADA.

At the present time the U. S. government has five large air bases around Hudson Bay and on Baffin Island and it is reported that Canadian officials will shortly visit same with a view to ascertaining to what extent they could be made to fit into post-war aviation. These bases are located at The Pas, Churchill, Southampton Island in northern Hudson Bay, Frobisher Bay on coast of Baffin Island and Fort Chimo on the south shore of Hudson Strait. Some of these bases are extensive, particularly the one at Churchill which is located a short distance from the estuary of the Churchill River where the great grain elevator was constructed a decade ago. Some day, when the curtain of censorship has been lifted, a dramatic story may be related around the construction of these far north airports.

ROCKET PROPELLED FIGHTER PLANES CAPABLE OF TERRIFIC SPEED USED BY NAZIS.

From Allied Supreme Headquarters it was reported Tuesday the Germans have brought out another new weapon—a rocket-propelled fighter plane capable of terrific speed. Little information has, as yet, been disclosed as to their design or speed, nor as to their effectiveness. This new demon of the air has been designated ME-163. The Germans were reported to have used rocket-propelled fighters last January but only pilots with iron nerves and constitution were able to handle them because of the great strain resulting from the terrific speed and the change of air pressure.

TEN THOUSAND U. S. BUILT WAR PLANES ARE FLOWN TO RUSSIA.

From U. S. military sources it is reported that approximately 10,000 lend-lease U. S.-built war planes have been sent to Russia since October 1941 when the Soviet aid policy was started. Half this number were flown via Edmonton the northwest staging route of the R.C.A.F., Alaska and Siberia. The planes flown from Great Falls, Montana, by U. S. ferry pilots to Fairbanks, Alaska. There they are taken over by Russian pilots and flown over the 540-mile route to Nome and across the 50-mile Bering Straits to Siberia. The remaining part of their journey is shrouded in official secrecy.

WHITEHORSE ALL-STARS MAKE CLEAN SWEEP IN TRIPLE PLAY-OFF.

(By Sgt. Jay Lee)

The Whitehorse All-Stars made a clean sweep of the triple all-star softball play-off series last weekend when they whipped Watson Lake 5 to 1 Saturday, July 29, and then trounced Skagway in a twilight feature last Sunday night 9 to 4, before a crowd of 1500 at the Whitehorse downtown ball park.

After last week-end's victories Whitehorse's All-Stars took another stride closer to the grand final play-off of the Northwest Service Command-Alaskan Wing Softball Championship Tournament to be held in Edmonton's Kingsway Park, August 15, 16, 17.

In the first game of last Sunday's double header Watson Lake defeated Skagway in a free hitting slugfest 12 to 8 at the town ball park.

Twice the score in favor switched from one team to the other—it was 4-4 in the 3rd inning and 8 all in the 5th inning. But the Watson Lake boys hit just a little too often for Skagway.

Two more teams have to be conquered before the Whitehorse team can even think about packing for the Edmonton trip. If the barnstorming Whitehorse All-Stars beat the "All-Stars" in Dawson Creek August 4, 5, 6, or "best out of three games," then they'll have only Fairbanks standing in their way. Tentative dates have been set with Fairbanks' All-Stars for Aug 11, 12 and 13.

When the writer inquired about the coming tilt with the hard-hitting Dawson Creek All-Stars, the Whitehorse team expressed their confidence. But team Captain Sgt. Packer only said "We'll see." The racy all-star athlete seemed like he was musing over the very close 4 to 3 battle of the 4th of July in which he and his team mates had to go extra innings for the winning tally over a very tough Dawson Creek outfit.

GABATHA!!!

Born in Vancouver, B. C., on Thursday, July 27, 1944, to Mr. and Mrs. John Phelps, a daughter. Last Saturday night John left hurriedly by C.P.A. plane for the coast on receipt of a wire informing him his wife was suffering from pneumonia and was in a critical condition. We are glad to state that latest reports state the crisis has been passed and she is now on the road to recovery.

Let us have faith that right makes
might; and in that faith let us to the
end dare to do our duty as we
understand it. —Lincoln.

AUGUST 4, 1944

A PROFESSION OF FAITH

We have faith in Canada, in her
past and in the heroic part her sons
are now playing upon the blood-
stained battlefields throughout this
war-stricken world. It is founded
upon the courage of her pioneers,
the spirit which achieved Confedera-
tion and thereby laid the strong
foundations for her national great-
ness and unity.

We have also faith in her future,
believing that she is destined to
exert an ever-increasing influence
for good in world affairs and in the
shaping of tomorrow when many
will turn to her with renewed hope
and lofty aspirations.

We have faith in Canada's vast
untapped natural resources and the
tremendous benefits which they will
bestow upon future generations for
centuries to come.

Our faith is centered in and around
a land we truly love, which provides
for our joy the splendour of the
Rockies at sunset, the blue mystery
of a Laurentian dawn, the quiet of
an Ontario woodcot, the far entic-
ing call of prairie horizons, the
sound of surf on the Atlantic shore
and the restless wash of the Pacific
tides. Our faith is rooted in her
people by whose united effort, sacri-
fice and creative genius the Canada
of tomorrow will be built. Under
God's guidance, and with his bless-
ings, we shall prosper far beyond
our most sanguine hopes and ex-
pectations.

NATIONAL UNITY

At a time when people's nerves
are "on edge" and there is trans-
piring throughout the world so much
ill-feeling and unrest, much of
which is quite unnecessary and un-
called for, it is regrettable that in
Canada such an incident should oc-
cur as that which took place rec-
ently in the province of Quebec.
We refer to the gratuitous insult

meted out to Mme Camillien Houde,
the French-speaking wife of the
French-speaking mayor of Montreal
who is at present incarcerated in
an interment camp in New Buns-
wick. It is reported in the press
that a bumptious official informed
her that if she wished to converse
with her husband she would have to
do so in English! And this under-
standing that bi-lingualism is an
established fact in the debates in
the House of Commons in Ottawa.

Apart altogether from the rights
which all Canadian, French and
English alike, have under our Con-
stitution, could any action on the
part of officialdom be calculated to
engender the bitterness and social ill
feeling which such instances so
easily invoke and which tend so
much to destroy that national unity
which all true Canadians so much
desire and which is so imperative
in the development of our national
life and character? The glory of the
British Constitution and of the
British Commonwealth of Nations
of which Canada is a member, lies
in the fact that due regard is given
to the culture and traditions of all
the various nations of which it is
composed and irrespective of race,
creed or national sentiment. The
pity, in this instance, is that it does
but tend to convince our French-
Canadian population that the rest of
us have little or no regard for their
culture and traditions which all
French-Canadians so justly prize
and rightly so.

CANADIAN GOVERNMENT TO ACQUIRE U. S. GOV'T EQUIPMENT AND SUPPLIES.

After the wanton destruction of
huge quantities of U. S. government
equipment and supplies utilized in
the construction work carried out
here and throughout the north
under the U. S. War Department, it
is refreshing to learn, through the
daily press, that at last an amicable
arrangement is to be consummated
between the two governments
whereby much may be salvaged and
purchased by the Canadian govern-
ment. Already much that was con-
sidered not worth the cost of trans-
porting back to the United States has
been destroyed. We all know that
governments are notoriously slow
when prompt action is required. The
pity of it is that in this particular
instance, much that has already
been destroyed is so badly needed
here in the north for the simple rea-
son that it is unobtainable elsewhere
and, in some cases, not even being
manufactured at the present time
due to the war.

The present unfortunate condition
recalls to mind the time, some years
ago, when millions of sacks of coffee
beans were destroyed because the
market for same was glutted. The
following year, however, there
was a drought and, as a
consequence, not sufficient coffee
beans were produced to satisfy the
market. Wanton destruction can
never be justified under any con-
ditions or circumstances.

OUR BRITISH COLUMBIA

WEEKLY NEWS LETTER

Eighty-three municipalities, villages and cities will participate in the distribution of \$570,000 by the Provincial Government out of automobile license fees, it was announced by Premier John Hart this week. The proportion of the grant is worked out on a population basis.

The grant of \$570,000 to the various districts has been made despite the fact that the Government has given a twenty percent rebate on motor licenses payable by owners of all passenger type cars. This rebate has meant a loss in revenue to the Treasury of \$400,000 while the grant distributed to the 83 cities, municipalities and villages represents approximately one quarter of the government's revenue from this source.

Agricultural Experiment

Discovery of a native fibre flax growing wild throughout the interior of the Province, chiefly in the Cariboo, has led the Department of Agriculture to conduct experiments in connection with its programme to encourage the growing of commercial flax, which already has led to the establishment of a fibre flax industry in the Fraser Valley.

The tame fibre flax now used is biennial and requires re-planting every second year and sometimes annually. It is hoped by the Department of Agriculture in the carrying out of its experiment with British Columbia's wild fibre flax, to supply a cross between the native plant and the tame commercial variety and perhaps establish a much hardier plant and one that will be perennial, obviating the necessity of annual or biennial planting.

Old Age Pensioners

A further modification in the granting of allowances to old-age pensioners has been put into effect by the Province. Those in receipt of such pensions may leave to their

heirs an estate up to but not exceeding \$2,000. Prior to this modification, the Government made claim against the estate to partially reimburse itself for allowances paid out. This new ruling places British Columbia still further in the lead of other provinces throughout the Dominion in respect to the treatment of the aged.

The old-age pensioners in British Columbia now receive \$60 a month for married couples; and \$30 a month for single persons together with free medical attention and prescribed drugs.

Educational Matters

During the past week, P. J. Kitley was appointed Director of school radio broadcasts. He will supervise this constantly widening scope of education in the schools throughout the Province.

Honourable H. G. T. Perry and Dr. W. J. Willis, Deputy Minister of Education, are now touring the northern part of the Province investigating at first-hand the problems relating to the teacher shortage in the hope of bringing about a satisfactory solution for the more scattered school districts.

T. B. Hospital Plans

Faced with a waiting list of T. B. patients seeking entrance to the Tranquille Sanitorium, the Provincial Government is planning the construction of a new \$750,000 tuberculosis hospital with accommodation for 300 beds, Honourable G. S. Pearson, Provincial Secretary announced.

Owing to the shortage of materials and man-power, it is uncertain as to how soon this project will be undertaken, however.

Hydro-Electric Plans

Twenty-nine cities and municipalities have approved the plan suggested by Premier John Hart that an independent commission be appointed to study all phases of the proposal to acquire all companies selling power to consumers and to develop the potential hydro-electric power of the Province. This leaves the way clear for the Government to proceed with its plans.

CANADA TO PURCHASE U. S. AIR BASES.

Prime Minister Mackenzie King announced in the Commons Tuesday that the Canadian government will pay to the U. S. government approximately \$120,000,000 in Canadian funds to reimburse it for outlays on air routes, plants and other war-time projects in Canada and at Goose Bay, Labrador.

**STAND GUARD
AGAINST
THIS CALAMITY!**

B RITISH Columbia could suffer no graver tragedy at this time than the burning of her forests.

Apart from all else, Canada's war effort and that of the United Nations would be impaired by any interruption in B. C.'s forest production.

Moreover, our forests are our greatest source of wealth, now and in the future. A very large percentage of our people are dependent, directly or indirectly upon this forest wealth.

It is the responsibility of each one of us to guard against the calamity of forest fires. This year and always we should **BE EXTREMELY CAREFUL IN THE WOODS.**

**NORTHERN WATER POWER
POSSIBILITIES ARE TO BE
INVESTIGATED.**

According to Dr. Charles Camsell, of Ottawa, deputy minister of mines and resources, an extension of investigations of the power possibilities in the Great Slave mining field, is being considered by the water power bureau of his department.

It was learned that the Lockhart river with 100000 hp. may be the source of power for a new gold comp.

Dr. Camsell said the only river having water power possibilities of magnitude within feasible transmission distance of the Yellowknife area, is the Lockhart, which enters the eastern end of Great Slave lake. No field examination has been made of the power resources of this river. In the last 25 miles of its course, however, from Artillery lake to Great Slave lake, it is reported to have a descent of nearly 700 feet in a succession of falls and rapids.

Artillery lake has an area of 190 square miles and a storage range of a few feet on the lake should provide for complete regulation of the outflow.

Synopsis of Mining Law Yukon Territory

Any person eighteen years of age or over shall have the right to enter, locate, prospect and mine upon any lands in the Yukon Territory, whether vested in the Crown or otherwise, for the minerals defined in the Yukon Quartz Mining Act and the Yukon Placer Mining Act, with certain reservations set out in the said Acts.

No person shall enter for mining purposes or shall mine upon lands owned or lawfully occupied by another until adequate security has been furnished to the satisfaction of the Mining Recorder for any loss or damage which may be thereby caused.

Where claims are being located which are situated more than one hundred miles from the Mining Recorder's office, the locators, not less than five in number, are authorized to meet and appoint one of their number as emergency recorder, who shall as soon as possible deliver the application and fees received to the Mining Recorder for the District.

If two or more persons own a claim, each such person shall contribute proportionately to his interest to the work required to be done thereon, and when proven to the Gold Commissioner that he has not done so his interest may be vested in the other co-owners.

The survey of a claim made by a duly qualified Dominion Land Surveyor shall be accepted as defining absolutely the boundaries of the claim surveyed, provided the survey is approved by the proper authority and remains unopposed during the period of advertisement.

A person about to undertake a bona fide prospecting trip may secure from the Mining Recorder written permission to record at his own risk a claim within six months.

A legal post must stand four feet above the ground, squared or faced for the upper eighteen inches and measuring four inches across the faced portion. The post must be firmly fixed in the ground.

Priority of location shall be deemed to convey priority of right. Certain disputes may be heard and determined by a Board of Arbitrators.

Grants of claims grouped or owned by one person may be made renewable on the same date.

PLACER MINING

Creeks means any natural water course having an average width of less than one hundred and fifty feet between its banks.

Creek claims shall not exceed five hundred feet in length, measured along the base line by one thousand

feet on each side of the base line. Other claims shall not exceed five hundred feet in length by one thousand feet in depth. Claims shall be as nearly as possible rectangular in form and shall be marked by two legal posts, one at each end of the claim, numbered "1" and "2" respectively. Location posts of creek claims shall be placed on the base line, and of all other claims parallel to the base line, and on the side of the claim nearest the creek or river towards which it fronts.

A discoverer shall be entitled to a claim 1,500 feet in length, and a party of two discoverers two claims, each of 1,250 feet in length.

The boundaries of any claim may be enlarged to the size of a claim allowed by the Act, if the enlargement does not interfere with the rights of other persons or terms of any agreement with the crown.

An application for a claim may be filed with the Mining Recorder within ten days after being located if within ten miles of the Recorder's office. One extra day shall be allowed for every additional ten miles or fraction thereof. A claim may be located on Sunday or any public holiday.

Any person having recorded a claim shall not have the right to locate another claim in the valley or basin of same creek within sixty days of locating first claim.

Title

Any person having complied with the provisions of the Act with respect to locating and recording a claim shall be entitled to a grant for one year and shall have the absolute right of renewal from year to year thereafter, provided during each year he does or causes to be done \$200.00 worth of work of the claim, files with the Mining Recorder within fourteen days after the expiration of the claim an affidavit showing a detailed statement of the work, and pays the required renewal fee.

GROUPING

Under certain conditions claims may be grouped and the work required to be performed to entitle the owner or owners to renewals of the several claims grouped may be performed on any one or more of the claims in the grouping. If the claims grouped are owned by more than one person a partnership agreement creating a joint and several liability on the part of all the owners for the joint working of the claims shall be executed and filed with the Mining Recorder.

Taxes and Fees

Royalty at the rate of two and one-half per cent. on the value of all gold shipped from the Yukon Territory shall be paid to the Comptroller.

For grant to a claim for one year \$10.00
For renewal of grant—
If renewed within 14 days after expiry date \$10.00
If after 14 days and within 3 months \$30.00
If after 3 months and within 6 months \$45.00

Registration of any document \$2.00
Recording an abandonment \$2.00
If it affects more than one claim—
For each additional claim ... \$1.00
Abstract of Title—
For first entry \$2.00
For each additional entry50
For copy of Document—
Up to 200 words \$2.50
For each additional 100 words .50
For grant of water—
For 50 inches or less \$10.00
For 50 to 200 inches \$25.00
For 200 to 1,000 inches ... \$50.00
For each additional 1,000 inches or fraction thereof \$50.00

QUARTZ MINING

Subject to the boundaries of other claims in good standing at the time of its location, a mining claim shall be rectangular in shape and shall not exceed 1,500 feet in length by 1,500 feet in width.

Every claim shall be marked on the ground by two legal posts, one at each extremity of the location line, numbered "1" and "2" respectively. On the side of No. 1 post facing No. 2 post shall be inscribed the name of the claim, a letter indicating the direction to No. 2 post, the number of feet to the right or left of the location line, the date of location and the name of the locator. On No. 2 post, on the side facing No. 1 post, shall be inscribed the name of the claim, the date of location, and the name of the locator.

The claim shall be recorded within fifteen days if located within ten miles of the mining Recorder's office; one additional day shall be allowed for every additional ten miles or fraction thereof.

Adjoining claims not exceeding eight in number may be grouped, the necessary representation work for each claim may then be performed on any one or more of the claims in the group.

Every application for a full claim shall be made on Form "A" and for a Fractional claim on Form "A-1".

No person is entitled to locate more than one claim in the same mining district within twenty days.

The timber on a mineral claim is reserved until the Mining Recorder certifies that the same is required for use in mining operations on the claim. The Commissioner, however, may issue a permit to holders of other claims to remove the timbers for use in their mining operations where other timber is not readily available.

Title

Any person having complied with the provisions of the Act with regard to locating and recording a claim shall be entitled to hold it for one year from the date of the record and thereafter from year to year, provided during each year he does or causes to be done work on the claim to the value of \$100.00 and shall, within fourteen days after the expiration of the year, satisfy the Mining Recorder that the work has been done, and pay the Certificate of Work fee. One hundred dollars may be paid in lieu of assessment work.

When \$500.00 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, obtain a lease for a term of twenty-one years with the right to renewal for further terms of twenty-one years. Claims located prior to July 7, 1917 may upon fulfilling similar requirements, be Crown Granted.

Leases, renewals of leases, and documents relating to leased claims shall be recorded with the Mining Recorder in triplicate.

Schedule of Fees

Recording every claim \$10.00
For a substitutional record .. \$10.00
Application for a lease \$10.00
For a certificate of improvements 5.00
If recorded within 14 days after expiry date \$5.00
If after 14 days and within three months \$15.00
If after three months and within six months \$25.00
Recording every certificate of work \$5.00
For a certificate of partnership \$5.00
Recording assignment, abandonment, affidavits, or any other document \$2.50
If document affects more than one claim, for each additional claim ... \$1.00
For granting period of six months within which to record \$4.00
For an abstract of the record of a claim:
For the first entry \$4.00
For each additional entry50
For copies of any document recorded where same do not exceed three folios \$4.00
Where such copies exceed three folios, 30 cents per folio for every folio over three.
For recording a power of attorney to stake from one person \$4.00
