There is no after hour access to the facility so please plan accordingly.

An average of one refuse bin a week is being sent to Whitehorse landfill for disposal. Everyone is encouraged to do recycling at home, and at work, to reduce the amount of material that goes to the landfill.

The free store has been upgraded; please ensure all items dropped off are clean and in good shape. It is not maintained by VOT staff, so please clean up after yourself. All items left out will be discarded.

Please ensure recycling bins are outside first thing Wednesday morning and easily accessible for pickup.

Electronic waste is now on the designated material list so it is free of charge to dispose of.

New signage has been installed at the recycling facility.

LAGOON AND SEWER SYSTEM

All systems are in good working order. Please be aware and careful of what is being flushed down the system.

The Water Treatment Plant (WTP) is in good working condition.

Please ensure that pathways to the water fill spouts are clear and sanitary for safe water delivery. Please notify us if you will be away and not requiring water delivery. Kindly ensure that spouts & tank whistles are in good working order and lids closed to help avoid water overflow.

Our annual inspection of the water treatment is scheduled for the end of February.

If you have stray dogs wandering on your property, please call the Village office.

Check This List When You Want To Keep Coyotes, Wolves and Foxes Away From Your Back Door

Feeding wild animals might seem like an act of kindness, but it is not. Feeding wildlife is illegal and usually ends in a death sentence for the animal. When foxes, coyotes and wolves become habituated to unnatural food sources they can lose their fear of humans.

A wild animal that has become conditioned this way can be a danger to itself and to the general public.

In some cases, wild animals that frequent residential areas can be live-trapped and relocated. But if the animal has become a nuisance to the extent that it kills domestic animals or threatens people, it must be destroyed.

What you can do:

- Don't feed or leave food out for foxes, coyotes or wolves.
- Don't attract wildlife with carelessly stored garbage and compost.
- Make sure your garbage and compost put out for pick-up are secure against scavengers.
- Keep meat and dairy products out of backyard compost systems, and ensure your compost is completely enclosed with a secure lid.
- Store pet food indoors or lock it up outdoors.

- Vaccinate your pets.
- Keep your pets indoors or safely tied in a well-lit and fenced yard.
- Prevent any interaction between your pets and wildlife – walk dogs on a leash all the time.
- Do not touch the fecal waste of foxes, coyotes and wolves.
- Set an example for your children. Teach them how to behave around wild animals. If you or your child sees a wild animal that is threatening, be big, be loud and never run.
- Talk to your neighbours, educate them on the risks to the community and to wildlife associated with feeding foxes, coyotes, wolves and any wild animals.

If you see a fox, coyote or wolf acting aggressively, call 1-800-661-0525

If you suspect someone is feeding wildlife, call 1-800-661-0525.

We can all do our part to help keep the wild in wildlife.
