Genre: Singer-songwriter, folk/roots

Short Biography: Madeleine Roger is a contemporary folksinger from Winnipeg, Canada. While accompanying herself on acoustic guitar in multiple tunings, it is her artistry as a songwriter that can silence a room, uniting her captivating voice with vivid lyricism and a maturity beyond her years. A former thespian and a lifelong traveler, she is prone to absorbing stories and questioning the way that things are, creating songs with imaginative melodies and honesty that bares truths about being alive.

She has recently created a debut album called "Cottonwood" at Paintbox Recording in Winnipeg, MB with producer/engineer Lloyd Peterson (The Wailin' Jenny's, The Weakerthans, James Keelaghan), who also happens to be her Dad. The album has been fully produced with gender parity, from the audio engineers, musicians, administration team, and beyond. The release date is September 21st, 2018.

Appearing often in the folk/roots duo Roger Roger with her twin brother Lucas, Madeleine has performed at music festivals and stages across Canada and Europe (The Winnipeg Folk Festival, Summerfolk Festival, The Calgary Folk Club, Campbell Bay Music Festival, etc) sung as a musical guest on CBC Radio's DNT0, and released their debut album Fairweather locally and overseas which reached the No. 1 spot on the Canadian national folk/roots/blues charts, garnering acclaim for its exceptional songwriting.

Madeleine's years of theatre and travel consumed her from the age of 7 into the end of her degree in Theatre & Film when she finally picked up one of the many guitars lying around her home and started writing songs. A year later she quit theatre, falling hopelessly in love with song-craft and the endless possibilities of music.

A lifelong history of singing in choirs, living rooms, musicals, and around bonfires has informed her current comfort on the stage, and the countless hours hanging out in the control room of her Dad's recording studios left an impression on Madeleine, growing up thinking that everyone talked about songwriting and album production at the dinner table.

ATLIN COMMUNITY NETWORK

keeping Atlin connected for over 15 years

We have been challenged with the job of improving our network and we accepted the challenge. While it has not been instant, it is happening. We are happy to report that there has been a noticeable increase of speed in the ACN network. We have recently installed some equipment that caches all updates for things such as apps, gaming stations, tablets, cellphones, Windows, Apple Microsoft and anything else that updates!! This will result in the update being accessed much faster without using any bandwidth...meaning no cost to you. This also ensures our network is not bogged down by all of these updates, which was certainly happening. A new billing system as well as new packages to reflect our improved internet are on the way! We are also currently in the process of upgrading radio receivers (dish on the outside of the house) from Tranzeo to Ubiquiti. A newer and more efficient product that can handle today's internet needs. We will continue to learn and keep improving what we can where we can. Thank you for your support!

*If you have any questions, please call us.
We are happy to help in any way we can!*
